| Maximum Marks | 4 Marks |

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

FLOW:

User Stories

Use the below template to list all the user stories for the product.

| User Type | Functional Requireme nt (Epic) | User Story Number | User Story / Task | Acceptance criteria | Priority | Release |
|-------------------------------|--------------------------------------|----------------------|---|---|----------|----------|
| Customer (user) | I want to buy a used car | USN-1 | As a user, I can register for the application by entering my email, password, and confirming my password. | I can access my account / dashboard | High | Sprint-1 |
